## **VOLVO ARTICULATED HAULER**

- Engine output: SAE J1995, Gross 228 kW (306 hp) SAE J1349, Net 227 kW (304 hp)
- Body volume, heaped: 13.0 m<sup>3</sup> (17.0 yd<sup>3</sup>)
- Load capacity: 24.0 t (26.5 sh tn)
- Volvo cab, designed for high operator visibility, ergonomics and comfort.

- Reduced maintenance time with no daily or weekly grease points.
- Electronic Operator's Communication System.
- Volvo high-performance, low emission, electronically-controlled, direct injected, turbocharged, intercooled diesel engine.
- Fully automatic planetary transmission, electronically controlled.

- Hydraulic retarder integral in transmission.
- Dropbox with longitudinal differential lock.
- 100% lock-up differentials. One longitudinal and two transverse differential locks.
- Front axle with three-point suspension.
- Volvo Load & Dump Brake.

# The A25D 4x4 in detail

#### Service

The Contronic Monitoring System monitors all major fluid levels, minimizing daily and weekly service times.

Time to next service and the status of vital vehicle systems is shown to the operator on a display in the instrument panel.

Service accessibility: Fold-down front grill with access ladder to remote filter bank, located in front of engine.

Large, 90° opening hood for total engine access.

Remote drain hoses and swing-out radiator for easy cleaning.

## **Fill capacities**

Crankcase	38	(10.0 US gal)
Fuel tank	400	. (106.0 US gal)
Cooling system	71	(18.7 US gal)
Transmission total	41	(10.8 US gal)
Dropbox	8.5	(2.2 US gal)
Front axle	33	(8.7 US gal)
Rear axle	52	(13.7 US gal)
Hydraulic tank	175	(46.0 US gal)

#### Engine

Volvo inline 6-cylinder, direct injected electronically-controlled, turbocharged, intercooled 4-stroke low-emission diesel engine with wet replaceable cylinder liners.

**Fan:** Hydrostatically-driven, thermostatically-controlled variable speed radiator fan consuming power only when needed.

Engine brake: Exhaust retarder.

Make, model	Volvo D10BACE2*
Max. power at	33.3 r/s (2 000 r/min)
SAE J1995 Gross	
Flywheel power at	33.3 r/s (2 000 r/min)
SAE J1349 Net, DIN 622	71*** 227 kW (304 hp)
Max. torque at	22.5 r/s (1 350 r/min)
SAE J1995 Gross	1 375 Nm (1014 lb ft)
SAE J1349 Net, DIN 6271**	* 1 365 Nm (1007 lb ft)
Displacement total	

\*) Meets US (EPA) step 2, California (CARB) step 2 and Europe (EU) step 2. \*\*\*) With fan at normal speed.

With fan operating at full speed, the flywheel power is 214 kW (287 hp) and maximum torque is 1 276 Nm (914 lb ft) which corresponds to DIN 70020.

## **Electrical system**

All cables, sockets and pins are identified. Cables are enclosed in plastic conduits and secured to main frame. Halogen lights. Prewired for options.

Connectors meet IP67 standard for water-proofing as necessary.

Voltage	24 V
Battery capacity	2x170 Ah
Alternator	1.54 kW (55 A)
Starter motor	6.6 kW <b>(8.8 hp)</b>

#### Drivetrain

Volvo components are specifically designed for hauler applications.

**Torque converter:** Single-stage with freewheeling stator and automatic lock-up on all gears.

Transmission: Fully automatic planetary transmission with six forward gears and two reverse gears, with a built-in variable hydraulic retarder.

Dropbox: Volvo design, single-stage.

**Axles:** Volvo design with fully floating axle shafts and planetary type hub reductions.

**Differential locks:** One longitudinal and two transverse with 100% lock-up function, operator selectable on the move.

Configuration: 4-wheel drive.

Torque converter	
Transmission	
Dropbox	Volvo IL 1
Axles	. Volvo AH 64/AH 71E

## Speed:

TOTWard		
1	8 km/h	(5.0 mph)
2	12 km/h	(7.5 mph)
3	22 km/h	(13.6 mph)
4	31 km/h	(19.3 mph)
5	40 km/h	(24.8 mph)
6	53 km/h	(32.9 mph)
Reverse		
1	8 km/h	(5.0 mph)
2	13 km/h	(8.1mph)

## **Brake system**

Dual circuit system with air hydraulic disc brakes. Meets ISO 3450 and SAE J1473 at total machine weight.

Service brakes: Dry discs on all wheels.

**Circuit division:** One circuit for front axle and one for rear axle.

**Parking brake:** Spring-applied disc brake on the propeller shaft, designed to hold a loaded machine on a grade up to 18%. When the parking brake is applied, the longitudinal differential is locked.

**Compressor:** Gear-driven by engine transmission. **Retarder:** Hydraulic, infinitely variable, integrated in transmission.

Total retarding capability including transmission retarder and exhaust retarder, see graph.

#### Steering system

Hydro-mechanical self-compensating articulated steering for safe and accurate high-speed hauling. Fast acting, low effort steering with 3.4 turns lock-to-lock for slow speed maneuverability.

**Cylinders:** Two double-acting steering cylinders.

Secondary steering: Meets ISO 5010 at total machine weight.

Steering angle: ±45°

#### Suspension

Volvo's unique maintenance-free 3-point suspension system. The front axle is suspended at three points, which results in independent movement needed in rough terrain.

Front axle: One hollow rubber spring on each side. A cross stay provides the stability. Two shock absorbers on each side. Rear axle: No suspension

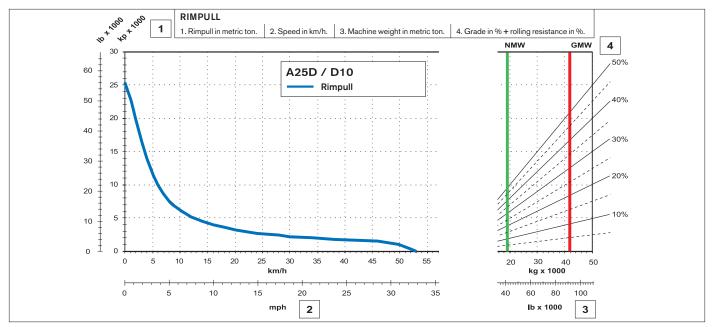

## Cab

The Volvo cab is ergonomically designed for operator comfort and excellent visibility. Wide threshold-free door opening and ergonomic cab entrance. Insulating rubber pads to reduce vibrations. Tilt/telescopic steering wheel. Overhead console for radio and storage. Dash-mounted Operator's Communication System. Storage bins.

Standard: ROPS/FOPS tested and approved. (ISO 3471, SAE J1040)/(ISO 3449, SAE J231) standards.

Heater and defroster: Filtered fresh air, four-speed fan and pressurized cab to maintain a clean operating environment. Multi-level air outlets and separate defroster vents for all windows.

**Operator's seat:** Adjustable operator's seat with flameproof upholstery. Retractable seatbelt. Sound level in cab, ISO 6396 74 dB (A).

### Instructions

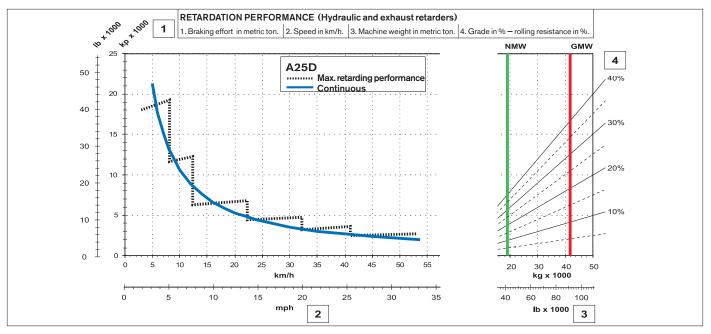

Diagonal lines represent total resistance (grade % ± rolling resistance %). Charts based on 0% rolling resistance, standard tires and gearing, unless otherwise stated.

A. Find the diagonal line with the appropriate total resistance on the right-hand edge of the chart.

B. Follow the diagonal line downward until it intersects the actual machine weight line, NMW or GMW.

C. Draw a new line horizontally to the left from the point of intersection until the new line intersects the rimpull or retardation curve.

D. Read down for vehicle speed.

### Hydraulic system

Load-sensing, variable displacement piston pumps consume power only when needed.

**Pumps:** Four engine-driven variable displacement load-sensing piston pumps driven by the flywheel PTO. One grounddependent piston pump for secondary steering mounted on the dropbox.

Filter: One fiberglass filter with magnetic core.

#### Pump capacity per pump:

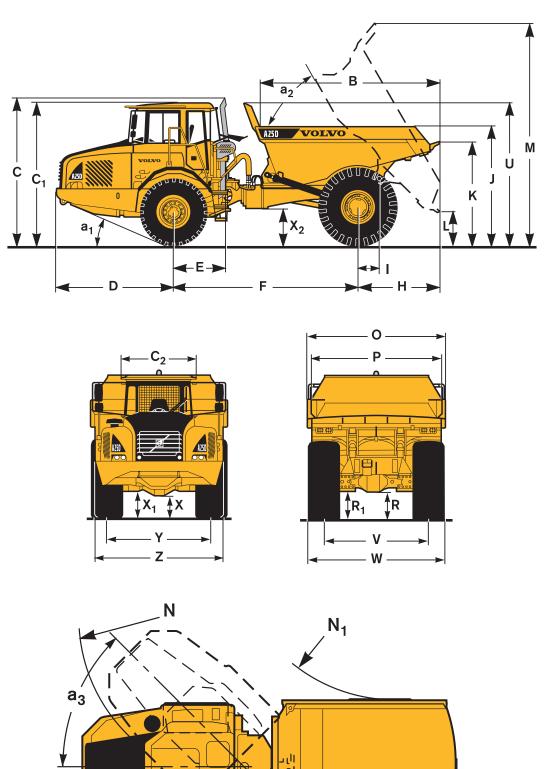

## Body

Load and Dump Brake: With the engine running, the service brakes on the rear axle are applied and transmission is shifted to neutral. Body material: Hardened and tempered steel body, flat plate design made of high-strength steel.

## A25D 4x4 Turn-Around (Optional)

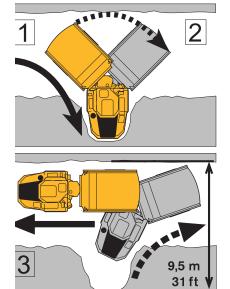

0

Turn-around system. Turns 180° in 25 seconds. A width of only 9.5 m (31 ft) is needed to turn the machine 180° in a 3-step operation. The turn-around system is hydraulically operated from the operator's seat and raises the unloaded trailer unit, thus enabling the steering hydraulics to swing the trailer through 90°.

Drive up to the turning point, steer the tractor unit fully to one side and engage the brakes.
Raise the trailer unit and steer the maximum 90°.

3. Lower the trailer and reverse away from the turning point.

## STANDARD EQUIPMENT

#### Safety

ROPS/FOPS protected cab Service platform for ease of service Anti-slip material on hood and fenders Hazard lights Horn Protective grille for rear window Rearview mirrors Retractable 3-inch safety belt Secondary steering Steering joint locking assembly Dump body lock Windshield wipers with interval function Windshield washers

#### Comfort

Tilt/telescopic steering wheel Cab heater with filtered fresh air and defroster Overhead console for radio and storage Sun visor Tinted glass Can holder/storage tray Cigarette lighter Ashtray Space for lunch cooler Storage box Air suspended, electrically heated operator's seat Instructor seat with safety belt Air conditioning Radio

#### Engine

Direct injected, electronically controlled Turbocharged, intercooled Remote oil drain plug Remote oil filters, for ease of access Preheater for easier cold starts Exhaust retarder

## OPTIONAL EQUIPMENT

(Standard on certain markets)

## Safety

Fire-extinguisher and first aid kit

## Service and maintenance

Tool kit with tire inflation unit

## Engine

Extra air cleaner, heavy-duty Electric engine heater (120V or 240V) External emergency engine stop Delayed engine stop

## Electrical

Work lights, roof-mounted Work lights, rear-facing, fender-mounted Rotating beacon, collapsible mount Rear vision system Anti-theft system (prevents engine start) Headlights for left-hand traffic Alternator, heavy-duty 80 A

#### Electrical system

55 A alternator Battery disconnect switch Extra 24 V socket for lunch cooler Lights: •Headlights •Parking lights •Direction indicators •Rear lights •Back-up •Brake lights •Cab lighting •Instrument lighting •Back-up alarm

### Operator information interface

- Gauges:
- Speedometer
- •Tachometer
- Brake pressure
- •Fuel •Transmission oil temperature

## Pilot lights for all switches Warning lights grouped and easy to read Central warning (3 levels) for all vital functions

#### Central positioned information display:

- •Automatic pre-start checks
- •Operation information, easy-to-use menu
- •Troubleshooting diagnostics
- •Hour meter •Clock
- Machine settings

#### Drivetrain

Automatic transmission Torque converter with automatic lock-up Dropbox, single-stage Hydraulic variable retarder 100% longitudinal differential lock 100% differential locks in all axles

#### Brakes

Air hydraulic disc brakes Two circuit brake system Parking brake on prop shaft

### Body

Body prepared for exhaust heating Load and Dump Brake

#### Tires

Front: 23.5R25, Rear: 29.5R25

## Other

Air drier Electrical hood opening

#### Cab

Electrically-heated rearview mirrors Cable kit for cab heater (120V or 240V) Window tint film

#### Body

Body exhaust heating kit Wear plates

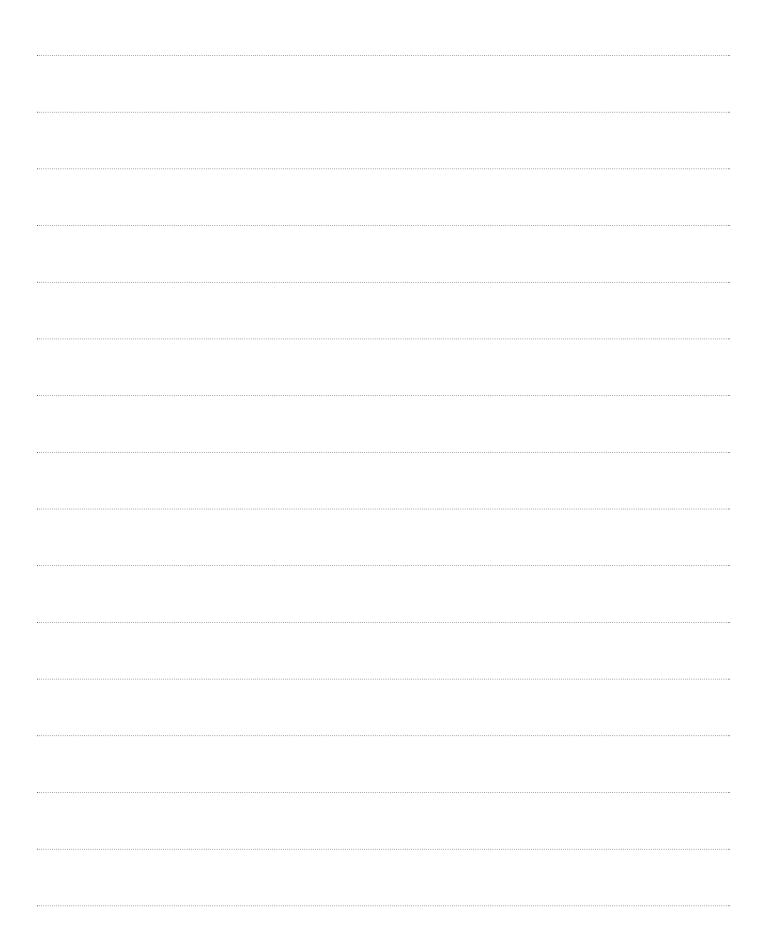

#### External

Additional front bumper (rubber)

#### Other

Turn-around system, a width of only 9.5 m (31 ft) is needed to turn the machine Synthetic hydraulic oil (biologically degradable) Arctic oil kit Toolbox

Under our policy of continual product improvement, we reserve the right to change specifications and design without prior notice. The illustrations do not necessarily show the standard version of the machine.
